

Tuition

	1 Wk	2 Wks	3 Wks	4 Wks	5 Wks	6 Wks	7 Wks	8 Wks	9 Wks	10 Wks
Full	\$380	\$735	\$1085	\$1430	\$1770	\$2105	\$2435	\$2760	\$3080	\$3395
Half	\$220	\$415	\$605	\$790	\$970	\$1145	\$1315	\$1480	\$1640	\$1795

Single Day = \$85(3+days = \$80/day)

Half Day = \$55 (3+days = \$50/day)

Because of no classes on July 4, if above includes Wk1 \$76 ea for full day or \$44ea for half day (this is 20% off of the 1Wk rates). 10% off 2nd student in family, 20% off 3rd student.

This ten-week curriculum runs 10 hours per day including 2-4 hours of academic instruction in Math, Science/Social Studies, and Language Arts. It also consists of gymnastics, trampoline, enrichments classes, etc., lunch (for full-day students), and snacks.

Students in the program will receive instruction in both Language Arts and Math in order to prepare for the next school year. The program is topic-based and each week students will be immersed into a new and exciting topic of the week.

Sign up early!

This will be an unforgettable, fun-filled, educational summer for your child(ren)!

Hawaii Academy is a private School for Lifetime Fitness, Gymnastics, Trampoline, and Human Sciences for students of ALL ages and abilities.

Summer School Program

Academic Courses

Active Learning for Little Ones

(Those not having completed the first grade)

Phonics, reading fluency, listening skills, number concepts and operations are the basic ingredients of these classes. We've added a touch of music, great literature, lots of opportunity for creative expression and mixed it with a large helping of fun and friendliness to create a wonderful, productive morning for preschool and kindergarten age children. (Minimum four years old)

Language Arts *(Students who have completed the first grade)*

Students work in small groups to increase vocabulary and improve writing skills. Innovative, multi-sensory teaching techniques and practice, practice, practice make this fast moving class exciting and effective.

Math

(Students who have completed the first grade)

Students work individually on their own custom-designed projects to meet their unique math goals. Focusing only on the specific skills and concepts insures that students efficiently improve math understanding and performance.

Science/Social Studies

(Students who have completed the first grade)

These highly interactive classes include an array of age-appropriate academic activities offering intellectual stimulation and excitement every day. Students conduct experiments and discover how the scientific method works. These are hands-on classes where each lesson leads to new insights.

Other Activities & Enrichment

Enrichment Experiences

Students receive gymnastics and trampoline instruction on a daily basis, increasing their general and sport specific fitness levels. Enrichment classes vary each week according to a theme. Throughout the week students learn interesting facts about the designated theme, (Themes may
